

'SNAKEMATE'

From Exel Composites

Australian Made Conduit Rod Products

SMALL SNAKEMATE™

- Ideally suited for light commercial applications such as installation of electrical, computer and telecommunication cables.
- Dispenser stands 560mm high x 390mm wide.
- Accommodates up to 80m in 4.5mm diameter conduit rod.
- Complete with hauling eyes.
- Conduit rod is HDPE coated for durability – colour yellow.
- **Part No: SMS**

MIDI SNAKEMATE™

- New collapsible Midi Snakemate is regularly used in assisting installation of power or telecommunication cables.
- Specially designed to minimise storage space when not in use.
- Custom design frame easily unfolds to various angles thus allowing use on most surface levels.
- Robust construction and unique tensioning handle permits easy application by single operator.
- Accommodates 6mm rod x 125m.
- 600 x 600 x 150.
- **Part No: SMMID**

MEDIUM SNAKEMATE™

- Continuous flexible FRP conduit is ideally suited for professional installation of power and telecommunication cables.
- Dispenser stands 1100mm high x 1000mm wide.
- Accommodates up to 200m in 8 diameter conduit rod.
- Complete with hauling eyes.
- Conduit rod is HDPE coated – colour yellow.
- **Part No: SMM**

LARGE SNAKEMATE™

- Ideally suited for professional installation of power and telecommunication cables.
- Dispenser stands 1240mm high x 1150mm wide.
- Accommodates up to 200m in 10 diameter conduit rod.
- Complete with hauling eyes.
- Conduit rod is HDPE coated – colour yellow.
- **Part No: SML**

'SNAKEMATE' From Exel Composites Australian Made Conduit Rod Products

PIT SUPPORT BAR

- Non Conductive, high strength FRP bars are commonly used to support cutovers in telecommunication pits.
- 2100mm x 40mm x 3.3mm flat strip.
- Non standard lengths are also available on request.
- Colour: Black/Charcoal
- Part No: **OB2800**

CONDUIT ROD SETS

- Ideally suited for the installation of cable through ducts of up to 15m in length where flexibility and non conductivity are crucial.
- Available in 6mm diameter rods, coated with yellow high density polyethylene.
- 4 rods per set, 1.5m in length
- All rods have the necessary fittings to enable them to be joined together to desired length.
- Part No: **CRS61154**
